Group name: Shoelacezz

Ground rules: These are the terms of group collaboration that we agree on as a team.

1. Everyone should openly participate during meetings. We will listen to all ideas respectfully to create a space where everyone feels comfortable participating.
2. Everyone should keep active in the slack to keep moving our project forward.
3. We want to keep our group dynamic lighthearted. We think that a good dynamic will help keep the project fun and moving forward. We should make sure to respectfully keep each other on track, but still enjoy the process!
4. If conflict or problems arise, respectful communication should be the first step.
5. We want to identify strengths, divide the workload during meetings, and have our part of the work done by our next meeting or decided due date.

Other notes:

Roles- depends on what we need to get done each week, but will be very collaborative, not hierarchical.

Meeting schedule- Monday 4:30pm weekly.
